

Overview

Rely on our top-tier Mining practice to cover the full range of your needs, from concluding transactions to navigating regulatory issues.

With extensive experience advising clients throughout Central America, including mineral metallic and non-metallic companies, Dentons Muñoz can guide you through every stage of your mining project. Our strength lies in delivering comprehensive service that blends substantial knowledge of legal issues with insights into the sector's business aspects, including contract negotiation, project development, mergers and acquisitions, financing and matters ancillary to ongoing operations.

Turn to us for assistance with:

- Purchase and sale of mining titles and concessions
- Sale, acquisition and consolidation of mining projects
- Due diligence reviews
- Project financing and development
- Design and execution of relevant corporate and contractual structures
- Obtaining of permits
- Interactions with local authorities
- Execution of stability agreements
- Compliance with laws and regulations
